Exhibit A

PZC Findings of Fact

Amendment Standards

Standard 1) Potential impacts: *The amendment shall not adversely impact existing land uses in proximity to a subject property, or, in the case of a text amendment, the overall zoning district purpose or intent of a code section proposed for amendment. The amendment should not unreasonably affect the value, use and enjoyment of nearby properties.*

Findings: The amendment will not negatively impact the overall zoning area.

Standard 2) Trend of development/consistency: *Map amendments should be a logical extension of the trend of development in the area around the subject property, or consistent with the approved comprehensive plan. In the case of a text amendment, the amendment shall be consistent with the overall zoning district purpose or intent of a code section proposed for amendment.*

Findings: The text amendment would support values of Rolling Meadows, in its support for children with emotional difficulties. It will also bring added business to the area as our staff are likely to visit nearby restaurants and other stores.

Standard 3) Externalities: *Relevant physical or market conditions that may have changed to make the existing zoning of a property inappropriate, or that make the proposed text amendment necessary for this chapter to be in keeping with the desirable development of the city shall be specified.*

Findings: The text amendment will not negatively impact the growth or comprehensive plan of Rolling Meadows. In fact, it will bring employees into Rolling Meadows which has the benefit of supporting nearby businesses, in particular, breakfast and lunch restaurants, including carry-out.

Standard 4) City plans: *Amendments should be consistent with the City's Comprehensive Plan, Official Map, and all other plans and policies adopted by the city.*

Findings: [See above.]

Standard 5) Zoning appropriateness: *The extent to which use of the subject property (or relevant properties in the case of a text amendment) is diminished by the current zoning standards or designation and is no longer suitable for the underlying zoning shall be specified.*

Findings: [See above.]
