Attention: Mr. Barry Krumstok, City Manager

Subject: City Engineer Services 2020 - 2023

Dear Mr. Krumstok:

Christopher B. Burke Engineering, Ltd. (CBBEL) is pleased to submit this proposal to perform professional engineering services as the City Engineer for the City of Rolling Meadows from February 1, 2020 through January 31, 2023. CBBEL has served as the City Engineer since 1998.

CBBEL understands that we will be providing general engineering services; preliminary and final plan review and inspection for proposed developments; and preliminary, final, and construction engineering for many elements of the City's Capital Improvement Program.

GENERAL ENGINEERING

General engineering will be provided by CBBEL for a monthly retainer of \$2,500. General engineering will include *but not be limited to* the following:

- ❖ Undertaking investigations of minor civil engineering, drainage issues, traffic engineering matters and public agency coordination. These investigations will be limited to four hours/occurrence. Tasks requiring more than four hours will be paid for on a time-and-materials or proposal basis.
- ❖ Attending weekly staff meetings with City Staff.
- ❖ Attending bimonthly status meetings with Building Department and Public Works Department staff.

CBBEL will attend Plan Commission Meetings, Council Meetings, and Committee of the Whole Meetings if requested by City Staff and this will be billed on a time-and-materials basis.

DEVELOPMENT PLAN REVIEW AND INSPECTION

CBBEL will provide preliminary plan review prior to Plan Commission meetings and provide plan review and inspections. CBBEL will bill the City in accordance with the latest edition of the City Code.

CAPITAL IMPROVEMENTS

In general, the portion of the City's Capital Improvement Program that CBBEL will be involved with will be:

- ❖ Yearly Street Maintenance Program
- ❖ Roadway Widening/Major Improvements
- ❖ Utility Replacements or Extensions
- ❖ Traffic Signals/Intersection Improvements
- ❖ Bike Paths
- ❖ Streambank Stabilization
- ❖ Bridge Inspections and Rehabilitation

Engineering for the City's Capital Improvement Program will consist of Phase I – Preliminary Engineering (if federal funds are involved), Phase II – Preparation of Contract Documents, and Phase III – Construction Observation or any combination thereof.

Due to the wide range of complexity and scope of these types of projects, each project will be negotiated separately based on the attached Schedule of Charges and the man-hours required to perform the scope of services. It should be noted that CBBEL will bill the City based on 2011 rates (which have not been increased since 2009) through January 31, 2023. This will result in savings to the City. For capital improvement projects, CBBEL will bill the City for actual "pass through" costs associated with reproduction and testing services.

We would like to establish our contract in accordance with the previously accepted General Terms and Conditions. These General Terms and Conditions are expressly incorporated into and are an integral part of this contract for professional services.

It is understood that this agreement may be terminated by either party upon 60 days written notice.

Please sign both copies of the agreement and return one to us as an indication of acceptance and notice to proceed.

Sincerely,

Christopher B. Burke, PhD, PE, D.WRE, Dist.M.ASCE
President
