

## **Is your home ready for winter?**

### **Nicor Gas and ComEd team up to help prepare area homes for winter**

Nicor Gas and ComEd are offering customers comprehensive energy assessments to identify ways they can save energy and money this winter. Certified, experienced Energy Advisors will come to customer homes and conduct thorough energy assessments. The program offers three benefits to help customers lower energy use, providing:

- Instant energy-savings products such as compact fluorescent light bulbs (CFLs), water-saving showerheads, and faucet aerators, and hot water pipe insulation.
- A customized energy report detailing opportunities for saving energy.
- A fixed-price proposal for insulation and air sealing, which includes instant rebates for 50 percent off the cost (up to \$1,250).

“Now is the ideal time to get your home ready for the winter heating season”, said Jim Jerozal, General Manager of Energy Efficiency at Nicor Gas. “By completing the recommendations provided, homeowners could save up to 30 percent on their energy usage and increase the comfort of their home year round.”

The introductory price of the assessment is only \$99. Since similar assessments can cost as much as \$500, Nicor Gas and ComEd are contributing to the cost to make it more affordable to area homeowners. Customers must be jointly served by both utilities to participate.

To schedule an assessment, or for more information, call 1-877-821-9988 or visit [www.NicorGasRebates.com/HomeEnergySavings](http://www.NicorGasRebates.com/HomeEnergySavings)
